EDUCATION

Bachelor of Science in Computer Science
Holy Angel University
2025 - Pursuing

STEM Strand (Senior High School)
Holy Family Academy
2023 - 2025

Junior High School
Holy Family Academy
2019 - 2023

PROJECTS

Lumino
React + Rust Desktop Application

The Universal Visual Interface (UVI). Turning the desktop into a semantic visual space where any software can communicate with another solely through pixels. Powered by Gemini 3.0.

Seguri
Dart / Mobile Application

A privacy-first mobile security application designed to protect the most vulnerable users from digital fraud. A Hybrid-AI Security Suite.

MockMarket
Dart / Web Application

A concurrent, multi-agent simulation engine that replaces weeks of user research and due diligence with a 5-minute, real-time stress test.

OBJECTIVE

I am a Computer Science student and the AI/ML Lead of Google Developer Groups on Campus at Holy Angel University. I specialize in building scalable applications, training machine learning models, and engineering intelligent automation workflows that push boundaries. My expertise spans modern front-end frameworks, robust back-end APIs, cloud deployments, and training offline-ready computer vision pipelines.

EXPERIENCE

AI/ML Lead & Project Manager
Google Developer Groups on Campus (HAU)
April 2026 - Present

- Spearheading the AI and Machine Learning division, mentoring team members, and driving the technical vision for campus-wide AI projects.
- Leading cross-functional teams to deliver impactful technology projects on time, managing resources, and facilitating agile workflows.
- Engineered a frictionless Google Colab and Cloudflare deployment pipeline for a hands-on Gemini RAG workshop, ensuring seamless technical execution.

Freelance Software Engineer
Freelance
Oct 2025 - Present

- Architected performant custom e-commerce web applications and integrated ordering systems that synchronized with client workflows, ensuring frictionless transactions.
- Developed bespoke software solutions to bridge complex functional gaps missing from existing off-the-shelf applications.

Community Relations Officer
Google Developer Groups on Campus (HAU)
August 2025 - November 2025

- Building strategic partnerships, growing community engagement, and coordinating events to foster a thriving local tech ecosystem.
- Spearheaded the technical coordination and digital broadcasting of community outreach workshops, successfully delivering interactive presentations to local city library staff.

CERTIFICATIONS & ACHIEVEMENTS

Top DataCamp Scholar
DataCamp (October 2025 - Present)

Constantly learning and mastering advanced topics in Data Science, Machine Learning, and Artificial Intelligence.

5x Hackathon Winner

Consistently competing at the international level to solve real world problems.

AI Engineer for Developers Associate
DataCamp (2025)

Validation of foundational AI engineering skills tailored for software developers.

Android App Development & Flutter
Simplilearn (2025)

Comprehensive skills in building, testing, and deploying native mobile applications.
